EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 3, line 8, "sate" has been changed to --state--.

In claim 11, line 1, "oppose" has been changed to --opposes--.

The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable because the prior art does not teach or reasonably suggest a fuel pump having an inlet filter wherein the fuel pump has an inlet channel which opens in an outer surface of the fuel pump in a direction substantially perpendicular to a longitudinal axis of the fuel pump, a filter body attached to the fuel pup and having an opening for communicating the inlet channel of the fuel pump, and a filter element coupled to the filter body and defining a filter chamber, wherein the filter chamber communicates with the opening of the filter body and the filter element is configured to extend along at least a part of the outer surface of the fuel pump.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
